

Team Project Journal

SWEN 301, 2015

Team ID: Team 10

Team Members: Jonathan Carr, Simon Glew, Jack Slater, Dallan Freemantle, Kyal Bond

On the basis of skills, interests and personalities you must assign the following roles to group members (note that one member can have more than one role)

Project leader: Jonathan Carr

Chief Requirement analyst: Jack Slater

Chief Designer: Kyal Bond

Chief Programmer: Dallan Freemantle

Chief Tester: Simon Glew

Note: all the above project roles must be manned by some person. Although you may have specific technical roles, everyone is expected to be involved in the whole process of project development and contribute to the project ideas and decision making. You will be democratic, although in the case of dispute the project leader will have the final say.

Meeting 1

Date: 12/04/2017
